

PressSense Fabric Kling is a 7.0 mil premium white matte coated polyester fabric with a removable low tack adhesive. Available in white. The adhesive has the ability to be cleanly removed for up to 6 months indoors.

## End Uses

Banners  
Calendars  
P.O.P Display

## Characteristics

FabricKling is designed for most types of painted interior walls. This includes most flat, semi-gloss and gloss paint finishes. FabricKling may also be applied to sealed wall coverings. The surface must be smooth and clean prior to application. Prints UV and conventional offset, screen or flexographic processes including standard solvent, eco-solvent and UV curable digital inks common to wide format digital printing systems.

## Recommendations

Completely evaporate inkjet solvents before application. Failure to do so may facilitate solvent penetration resulting in product failure.

## General Capabilities

Typical Properties	
Minimum Application Temperature - F°	+ 40 Degrees Fahrenheit
Adhesive Service Temperature Range - F°	-40° to 180°
Thickness	7 mil
Liner	90 # Stay Flat
Adhesive Thickness	.8 to 1.2 Mil
Adhesion to Standard Test Panels	4 to 12 oz/in.
Liner Thickness	6.7 Mils
Shelf Life	6 months shelf life when stored at 70° F and 50% RH.
