

# Printable Plastics

**PressSense®** printable plastics are manufactured and converted to meet the highest standards today in the printing industry. With our market and print knowledge, we provide our customers with the best materials and results for their equipment and applications.

## We offer materials for various printing methods:

- UV Offset
- Conventional Offset
- Digital
- Screen
- We specialize in high quality films and plastics, as well as custom manufactured plastic formulations, coatings and constructions.

## PressSense® printable plastics include:
